SCA Discusses Holid ay Parties

by Steve Weakley, Reporter

The regular meeting of the S.C.A. at Appomattox Intermediate School was held on Dec. 2, 1971. The minutes of the last meeting were read and approved.

For old business there was discussion on Christmas parties or dances. A committee was appointed to poll the student body, on their wishes, knowing that all parties are subject to advisory council approval.

A second item of discussion was, ways of improving student behavior in the cafeteria and rest rooms.

A report was given on the district S.C.A., meeting held at the E. C. Glass High School on Nov. 20, 1971. The seventh grade vice-president, Joe Ford, summarized the important events of that meeting.

Discussion was held on a student-faculty volleyball game and a committee was appointed to work on details.

Under new business, Mr. Price, a Nasco representative, gave a lecture and demonstration on a possible S.C.A. Project.

"It was found that 2.93 percent had experienced as passengers or drivers a motor vehicle crash in which marihuana or drug usage was thought to be a contributing factor.

"The survey data suggested that in the past three to five years some 5,000 marihuana and drug related traffic crashes involving high school age students as drivers or passengers have occurred in Virginia and that some 60 fatal crashes have involved use of marihuana and drugs.

Hanna said that "while only an estimated two to three percent of our alcohol related highway crashes resulted in fatalities, some 16.7 percent of the marihuana and drug related crashes in this study were fatal. Amazingly, the data suggested that, when treated with reasonable appropriate assumptions, the approximate 3 percent of fatal motor vehicle crashes involving 1 to 19-year old drivers may involve marihuana or drug usage.

Drivers 'Under Influence' Are Hazard

RICHMOND, VA. -- Motor vehicle drivers under the influence of drugs have become serious hazards on Virginia's highways, ranking high with alcohol and vehicle speed, John T. Hanna, director of the Highway Safety Division of Virginia said today.

Hanna announced results of a recently published survey, "Marihuana and Drug Use and Highway Safety, A Survey of High School Students in Virginia," at a press conference this morning in Richmond. The conference was held jointly with F. John Kelly, Executive Director, Governor's Council on Narcotics and Drug Abuse.

"We believe this is one of the most comprehensive studies yet made in the United States with respect to drug usage and highway safety," Hanna said. "With the cooperation of the State Department of Education and high school principals throughout the state, 12,453 students were surveyed.

Naming Santa

Santa Claus is a tradition — a pleasant one, indeed. And, traditionally, he owes his name to a gift-giver of the past.

St. Nicholas, a fourth century bishop who became the patron saint of children, was noted for his generosity. His Dutch name was "Sinter Niklaas," which gradually changed to Santa Claus.

Even today, Santa is also known as "St. Nick."

Final 1971 Wheat Payments Made

Checks totaling approximately $25,000 in final payments under the 1971 set-aside wheat program have been mailed to producers on approximately 466 participating farms, according to J. P. Alvis, Jr., Chairman of the Appomattox County ASC in addition to preliminary wheat payments of approximately $70,000 made to farmers on July 1.

The final wheat payment is the difference between the final face value of the domestic certificates – determined to be $1.–63 per bushel – and the preliminary payment. The final face value of the certificates if the difference between 100 percent of the parity price $2.93 on July 1 and the national average wheat price of $1.30 received by farmers for the 5-month period July through November.

The final payments are computed on the basis of 43 cents per bushel. Preliminary payments of $1.20 per bushel made on July 1 were based on 75 percent of the $1.60 estimated face value of domestic wheat certificates on July 1.

The Agricultural Act of 1970 provides for preliminary payments under the wheat, feed grain and cotton programs. Only in the wheat program is the preliminary payment specified as a percentage of the final payment. In the feed grain and cotton programs, the preliminary payment may be the total payment due unless market conditions warrant a final payment. This payment would then be made for cotton after January 1, 1972 and for feed grains after Mar. 1, 1972.
